## Luminesse | Satin

**ENV1122LM**

### Len-Tex Surface iQ

Delicate fiber strands formed into a silken web create a truly distinctive and elegant visual effect in our new Luminesse design. The effect is achieved with a delicate layer of a proprietary nonwoven bonded to the surface and then tinted. Pearlescent inks and washcoat create a soft glow while providing drama and depth. The beauty and elegance of Luminesse combined with its PVC-free construction make it an irresistible option, delivering high style as well as healthy and sustainable product design.
